

Maison Vésale

Brussels (Belgium)

In March 2017, the Public Centre for Social Welfare of Brussels and its chairwoman Pascale PERAÏTA, inaugurated Maison Vésale. This new, specialized nursing home focuses on people with dementia or a similar condition. Located in the center of Brussels, this center can accommodate 128 residents.

Maison Vesale wants its residents to feel as much as possible “at home”, both through its architecture and by its professional approach and expert guidance. Haelvoet is pleased to be a partner in this beautiful project and provided the 128 new rooms of an Olympia Soft bed, Quadra Care bedside tables and Domus relax seats. The recreation rooms were furnished with Lima and Egg chairs and Sisto and Square tables.
